

Frequently Asked Questions

I didn't pass the eligibility quiz. Why not?

The quiz questions are designed to make sure that an organization fits the Nationwide Foundation's funding guidelines. If you received a message that your proposal does not meet the funding guidelines, we are sorry, but we will be unable to provide support to your organization. If you have questions about our funding guidelines please send them to corpcit@nationwide.com

After saving my application, how do I return to review, edit and submit the funding application?

If you would like to save your application and complete at a later time, scroll down to the bottom of the page and click the button **Save & Finish Later**. You will be asked to enter an email address and password. You will receive an automated confirmation email providing you with a link to use to return to the application and your **My Account** page. When you are ready to complete the application, you will need to click on the link provided in the email and enter your email address and password.

Can I return to the original link to access the application?

No, accessing that link will start a new application. You must login to the **My Account** page to continue the original application.

I have entered my email address and password and still cannot access my application or My Account page.

Please double check your entries to make sure that you have not misspelled anything. Make sure that you are using the same email address you used to initially login and create your account. If you still have problems, contact corpcit@nationwide.com

I have logged into my account and my application is not listed.

If your application is not found, it is most likely that the application was not saved properly and you will need to start a new application.

I forgot my password. What do I do?

Go to www.nationwide.com/foundation. Select 'How to Apply', then select 'Complete a previously saved application'. On the login page, there is a link that says "Forgot your password? Click here." You will receive an email, to the email address you entered at the time you submitted or saved the application, with your password.
