Spotlight on behavioral health

Behavioral health organizations face complex risks and want to work with an insurance carrier that knows their business inside-out. With these staggering statistics, Nationwide can appreciate your industry challenges. Our OthersFirst® Specialty Care Program provides insurance coverage tailored to organizations in the business of caring for others.

**Intellectual disabilities and developmental disabilities**

About 4.92 million individuals (around 17%) have an intellectual disability.

About 17% of children have one or more developmental disabilities.

1 in 59 children in 2014 were on the autism spectrum; that's about a 30% increase from 2012.

We understand intellectual and developmental disabilities are different, and an individual can have one or both. We offer a product customized to your specific needs with a wide range of basic and optional coverages including enhancement endorsements. In addition, clients get access to field loss control professionals who can provide solutions on matters of special importance including:

- Abuse prevention and reporting
- Fall prevention

**Mental illness**

1 in 5 adults experience some type of mental illness. Only 43% of adults with a mental health condition actually seek out care.

Nationwide has highly skilled claims associates trained to handle large and complex bodily injury, professional liability and abuse-related incidents.
